Independent Auditors' Report

The Board of Directors
Woodlawn Foundation, Inc. and Affiliates

We have audited the accompanying combined financial statements of Woodlawn Foundation, Inc. and Affiliates (Woodlawn), which comprise the combined statements of financial position as of June 30, 2015 and 2014, and the related combined statements of activities and cash flows for the years then ended, and the related notes to the combined financial statements.

Management's Responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Woodlawn as of June 30, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO COMBINED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION

The Woodlawn Foundation (Woodlawn) is a New York nonstock corporation whose primary purpose is to solicit contributions and to provide grants world-wide to not-for-profit organizations which receive pastoral care from the Catholic Prelature of Opus Dei.

The Rockside Foundation (Rockside) and The Sauganash Foundation (Sauganash) are supporting organizations of Woodlawn and were established exclusively to assist in raising funds to support Woodlawn's mission.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation

The financial statements are presented on a combined basis to include the transactions of Woodlawn and its affiliates, Rockside and Sauganash. All significant intercompany balances and transactions have been eliminated from the combined financial statements. The combined financial statements of Woodlawn and its affiliates have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. Accordingly, the accounts of Woodlawn and its affiliates are reported in the following net asset categories:

Unrestricted Net Assets

Unrestricted net assets represent resources that are not subject to donor imposed restrictions and may be expended at the discretion of the Board of Directors.

Temporarily Restricted Net Assets

Temporarily restricted net assets represent contributions that are restricted by the donor as to purpose or time of expenditure.

Permanently Restricted Net Assets

Permanently restricted net assets represent resources that have donor-imposed restrictions that require that the principal be maintained in perpetuity but permit Woodlawn to expend the income earned thereon. Woodlawn did not have any permanently restricted net assets as of June 30, 2015 and 2014.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Accordingly, actual results could differ from those estimates. Management has used estimates primarily to value alternative investments and in determining the allowances for loans receivable and uncollectible pledges. It is management's opinion that the estimates applied in the accompanying combined financial statements are reasonable.

Cash and Cash Equivalents

Cash and cash equivalents are defined as bank accounts and highly liquid investments with original maturities of 90 days or less.

WOODLAWN FOUNDATION, INC. AND AFFILIATES

NOTES TO COMBINED FINANCIAL STATEMENTS

Loans Receivable, Net

Woodlawn has loans receivable related to advances to not-for-profit organizations to support their missions and other projects as well as other loans to for profit corporations. Some loans to not-for-profit organizations are forgiven when certain conditions or matching requirements are met as approved by the Board of Directors. Uncollectible account balances are written off when management determines the probability of collection is remote. Management maintains an allowance for uncollectible loans based on a review of specific loans and general historical experience.

Split-Interest Agreements

Woodlawn is a party to the following types of split-interest agreements:

Charitable Gift Annuities

Woodlawn has entered into several charitable gift annuities whereby assets were transferred to Woodlawn and invested. Under the terms of the agreements, contributions are received from donors in exchange for a promise by Woodlawn to pay a fixed amount for a specified period of time to a donor or individuals designated by the donor. Annuity contracts may be established for either one or two lives and provide that fixed payments be made to the annuitants for the remainder of their lives. Upon termination of the annuity contract, any remaining assets revert to the Woodlawn for purposes as specified in the charitable gift annuity contracts. On an annual basis, Woodlawn revalues the liability to make distributions to the designated beneficiaries based on actuarial assumptions.

Charitable Remainder Trust

Woodlawn is the beneficiary of various charitable remainder trusts for which Woodlawn is the trustee. A charitable remainder trust provides for the payment of distributions to the grantor or other designated beneficiaries over the trust's term (usually the designated beneficiary's lifetime). At the end of the trust's term, the remaining assets are available for Woodlawn's use. The trust is carried at the fair value of the underlying investments. The portion of the trust attributable to the present value of the future benefits to be received by Woodlawn is recognized in the combined statements of activities as a temporarily restricted contribution in the period the trust is established. On an annual basis, Woodlawn revalues the liability to make distributions to the designated beneficiaries based on actuarial assumptions. The liability is calculated using discount rates ranging from 4.8% to 10.6% and applicable mortality tables.

Other Assets

Other assets represent certain religious art items leasehold improvements and security deposits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized and unrealized gains include Woodlawn's gains and losses on investments bought and sold as well as held during the year.

Woodlawn's Investment Committee determines the organization's valuation policies and procedures utilizing information provided by investment advisors, asset custodians, fund managers and investment companies.

WOODLAWN FOUNDATION, INC. AND AFFILIATES

NOTES TO COMBINED FINANCIAL STATEMENTS

Realized and unrealized gains and losses on these investments are reported in the combined statements of activities as increases or decreases in unrestricted net assets unless their use is temporarily restricted by explicit donor stipulations.

Contributions

Unconditional contributions are recognized when pledged or received, as applicable, and are considered to be available for unrestricted use unless specifically restricted by the donor. Contributions receivable expected to be collected in more than one year are discounted to their present value. Woodlawn reports contributions of cash and other assets as temporarily restricted support if they are received with donor stipulations that limit their use. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Contributions received whose restrictions are met in the same period are presented with unrestricted net assets. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

Income Taxes

Woodlawn and its affiliates are exempt from federal and state income taxes as public charities under Section 501(c)(3) of the Internal Revenue Code.

Subsequent Events

In preparing these combined financial statements, management has evaluated subsequent events through March 23, 2017, which represents the date the combined financial statements were available to be issued.

NOTE 3 - CONCENTRATIONS OF CREDIT RISK

Woodlawn's financial instruments that are exposed to concentrations of credit risk consist of the following:

Cash and Cash Equivalents

Woodlawn places its cash deposits with high credit-quality institutions. Such deposits exceed federal depository insurance limits at times during the year. However, management believes that Woodlawn's deposits are not subject to significant credit risk.

Investments

Woodlawn's investments are comprised of various stocks, bonds, mutual funds and alternative investments consisting of real estate, limited partnerships, a closely held corporation and limited liability companies. The value of the investments is subject to fluctuations due to general market conditions and interest rates.

WOODLAWN FOUNDATION, INC. AND AFFILIATES

NOTES TO COMBINED FINANCIAL STATEMENTS

Loans Receivable

Woodlawn grants loans to various not for profit organizations to support their missions and other projects as well as for profit companies. Receivable balances are considered delinquent if no payment has been made and no payment plan has been established. Woodlawn maintains an allowance for potential collection losses based upon a review of specific delinquent accounts, and such losses have been within management's expectations. Specific accounts are written off after normal collection efforts have been exhausted.

NOTE 4 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that Woodlawn has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Because these assets are not readily marketable, their estimated fair value is subject to uncertainty and may differ significantly from the value that would have been used had a market for such items existed.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. When, as a practical expedient, an investment is measured at fair value on the basis of net asset value, its classification as Level 2 or 3 will be impacted by the ability to redeem the investment at net asset value at the measurement date. If there is uncertainty or the inability to redeem an investment at net asset value in the near term subsequent to the measurement date, the investment is categorized as Level 3.

WOODLAWN FOUNDATION, INC. AND AFFILIATES

NOTES TO COMBINED FINANCIAL STATEMENTS

Financial Instruments Measured at Fair Value

The following is a description of the valuation methodologies used for financial instruments measured at fair value:

Mutual Funds

Mutual funds are valued at the quoted net asset value of shares reported in the active market in which the mutual funds are traded.

Common and Preferred Stocks, Exchange Traded Funds, and U.S. Governmental Securities

These items are valued at the closing price reported in the active market in which the individual securities are traded.

Limited Partnerships, Limited Liability Companies, and Hedge Funds

Interests in these investments are valued by external investment managers taking into consideration the fair value of the underlying assets and liabilities, current distribution rates and discounts for redemption and liquidity restrictions.

Closely Held Corporation

The fair value of the closely held corporation held by Woodlawn is based upon an independent appraisal.

Assets Held Under Split-Interest Agreements

Assets held under split-interest agreements are valued at the quoted net asset value of shares reported in the active market in which the underlying mutual funds are traded.

Investments in Real Estate

The fair value of investments in real estate is determined using professional real estate appraisals and comparisons of similar properties in the areas. Woodlawn believes that this amount has not changed materially and approximates fair value at June 30, 2015 and 2014.

Liabilities Under Split-Interest Agreements

Liabilities under split-interest agreements are valued using the present value of the fixed payments be made to the annuitants for the remainder of their lives. The valuations involve assumptions based on the donor's age and life expectancy.

There have been no changes in the methodologies used at June 30, 2015 and 2014.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Woodlawn believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - INVESTMENTS IN REAL ESTATE

During 2009 as part of an irrevocable life estate agreement, Woodlawn received real estate consisting of a property in Wisconsin that was held for investment. The agreement allowed the grantors to remain on the property during their lives and the property was recorded as a temporarily restricted net asset. During 2014, the property was transferred to an unrelated not-for-profit organization organized for the purpose of holding and maintaining the property as a conference center for Catholic Prelature of Opus Dei.

NOTE 8 - NOTES PAYABLE

Notes payable consist of notes to individuals at June 30, 2015 and 2014, for loans received for unrestricted use ranging from \$1,100 to \$371,000, all of which are noninterest bearing and due on demand. The balance outstanding as of June 30, 2015 and 2014, was \$697,346.
